# JAPM

JOURNAL of ANESTHESIA and PERIOPERATIVE MEDICINE (JAPM) is an international peer-reviewed open-access journal dedicated to improve the quality of care and outcomes of patients by publishing original research articles, clinical cases, review articles and perspectives relevant to research in and the practice of perioperative, critical care, and pain medicine.

JAPM is published bimonthly in both print and online versions, most articles will be published online first on its website at [www.japmnet.com](http://www.japmnet.com), before they appear in a regular issue of the journal.

There are no submission fees, no publication or author fees for at least the first three volumes of JAPM, and after publication, all the online articles are freely available to all.

When research articles, systematic reviews of randomised trials and other articles are of exceptional clinical importance and urgency, or where there is a public policy reason for urgent publication, we can offer full online fast track publication within 20 days of receipt.

Any questions please contact the JAPM Editorial Office at +86 13911125986, or +86 10 8238 7829, or via email at [editor@japmnet.com](mailto:editor@japmnet.com), or [yu@japmnet.org](mailto:yu@japmnet.org).
